Restores an exhausted nursing mother to full strength and gives abundant sustenance for her child.

Strengthens the muscles and nerves, enriches the blood.

Overcomes weakness, wakefulness, and lack of energy.

Keeps off all chills, fevers, and other malarial poison.

Will infuse with new life the weakest invalid.

37 Walker St., Baltimore, Dec. 1882. For six years I have been a great sufferer from Blood Disease, Dyspepsia, and Constipation, and became so debilitated that I could not retain anything on my stomach, in fact, I had almost become a burden. Finally, when hope had almost left me, my husband seeing BROWN'S IRON BITTERS advertised in the paper, induced me to give it a trial. I am now taking the third bottle and have not felt so well in six years as I do at the present time.

Mrs. L. F. GAVIN.

BROWN'S IRON BITTERS will have a better tonic effect upon any one who needs "bracing up," than any medicine made.

AN ATTRACTIVE PLACE

Having just received one of the finest stocks of Men's and Boys' Clothing, Gents' Furnishing Goods, Hats, Caps, Boots and Shoes ever brought to this State, I invite my friends and the public generally to give me a call. My prices are lower than ever, and my patrons are sure to be well pleased. Great Bargains in dull times is what we all want. Call at my store and be convinced.

HOME COMFORT

After a Rainy Ride a Country Physician Tells What He Thinks

of Some People.

"I wish to gracious some people would learn when they need a doctor and when they don't," exclaimed Doctor E., as he entered his house in a cosy little village in the interior of the State of New York, after a tedious night ride of many miles.

"I have been down among the mountains; to see a man who, the messengers said, was very sick and not likely to live till morning, unless he had immediate help; and found him suffering from a rather sharp attack of colic, which his family might have relieved in 10 minutes, if they had a grain of sense and two or three simple remedies in the house. But no; they must remain ignorant as pigs, and when the least pain or ache takes them, send for a doctor, whether they ever pay him or not."

Why, doctor, what kind of simple remedies, as you call them, do you expect people to keep in the house?" asked his wife, as she poured him a cup of hot tea.

"In this case," answered the Doctor, "if they had only put BENSON'S CAPSICUM POROUS PLASTER on the man's stomach, he would have been all right in an hour, and saved me a dreary ride."

In all ordinary complaints it cures at once.

All diseases are eliminated from the system by what may be roughly called expansion or extraction, or by a union of the two processes. Benson's Plaster promotes both. It incites the torpid organs to act, and sends its healing, soothing influence through the myriad pores of the skin. All other plasters oblige the patient to wait. They give him hope for tomorrow. Benson's Plaster gives him help today. Which is better, do you think. Buy the CAPSICUM and keep it in the house. Price 25 cents.

EDITORIAL NOTES.

Not long ago we were assured that it is an error to suppose that Alaska is an unpleasant place, and now the Rev. Sheldon Jackson, who lived five years in Alaska, assures a Philadelphia audience that "No words can be strong enough to express the charm of this delightful land, where a climate softer than that of the north of England insures at all times of the year full enjoyment of all the loveliness around you." He further said that in 40 years the mercury in Alaska had, by Russian record, only twice gone below zero.

A Denver prophet makes this startling prediction: "There are two comets about to make their appearance in the northwest. One has a cluster nucleus; one will come within one degree of striking the earth; will pass nearest Asia. Ocean will arise and embrace ocean, over the Himalayas, and there will not be an inhabitant in Asia." In this event it will not be necessary to trouble ourselves further about the enforcement of the Chinese immigration law.

The cattle of the Pampas are computed at 20,000,000. They are the descendants of a bull and eight cows which were brought there by two Portuguese brothers in 1553. It is only near Buenos Ayres that they have been crossed with finer stock. The old herds are ill-shaped and ugly.

Siberia now ranks only barely below the United States and Australia as a gold producing country. The best Russian authorities think its mines will yield nearly or quite \$25,000,000 worth of the metal this year, and the output is steadily increasing.

If over 2,000,000 telegrams were sent last year in Japanese, as reported, how many messages, and in how many tongues were sent on all the face of the earth? What a "bold old babbler" is the lightning since Franklin called him down.

Parties just returned from Guaymas report the gold excitement dying out. The gold shipped from there was sold by Indians to Mexicans, and there is no accurate knowledge of when or where it was found.

A singular resemblance between a bank cashier and a bullfrog has very recently been discovered. When either of them leaves the bank he generally goes "across the pond."

TELEGRAPHIC BREVITIES

A boat filled with workmen capsized yesterday at Allegio, near Milan. Twenty-two men were drowned.

The Lord-Lieutenant has refused to relieve Caffrey, the Phoenix Park murderer who pleaded guilty. He is to be hanged on Saturday next.

Locos, the Apache chief, his son and wife, his son-in-law, daughter, grandchildren and 19 women and six bucks have surrendered to the military authorities.

John Fitzgerald, J. W. Walton and Jno. Mansland, log drivers employed by the Muskegon Boom Co., were drowned in the Muskegon river at Hersey, Mich., yesterday.

The bombardment of the capital of Annam is probably in revenge for the death of Captain Riviere. It is stated that several German vessels leave Kiel for China next week.

William S. Harris, a former wealthy citizen of Pittsburg, committed suicide yesterday this morning. He recently returned from Colorado, where he had lost the remnants of his fortune.

The shingle mill of G. V. Turner near East Saginaw, Mich., was blown to atoms this morning by the explosion of a boiler. W. G. Turner, Hiram Goulding and Jno. McDowell were killed.

Fifty-one miners have been indicted at Edwardsville, Ill., for participating in the riot at the Abbey and other mines, at and near Collinsville last week. Four of them have been arrested.

EASTERN DISPATCHES.

[PRESS DISPATCHES TO THE GAZETTE.]

No Reliable Reports of Crook's Movements yet Received.
 WASHINGTON, May 31.

Lieutenant William Baird of the Sixth Cavalry, who has just returned from the Mexican frontier, said to a Star reporter to-day that he did not think the report of General Crook's engagement with the hostiles was very trustworthy. "Very likely," he said, "there has been fighting, but I do not think any decisive action has taken place. General Crook did not intend to send back word until he had accomplished something or entirely failed." In reply to a question why General Crook did not take with him into Mexico a larger force of cavalry, Lieutenant Baird said:

"His action in that respect is not fully understood. He took all the men he could possibly provide transportation for. Everything in the way of provisions and baggage had to be carried on the backs of mules. The country was so rough and all the mules that could be procured at the different posts were brought in. These mules are not very plentiful, and his force had to be regulated in accordance with the supply. It was absolutely necessary to take scouts to track the enemy. General Crook took with him as far as the border, eight or 10 companies, with which he formed a cordon along the line. Six companies were left in the vicinity of San Bernardino, under Colonel Biddle. It was with one of these companies I was stationed. It is a terrible country General Crook entered, and perfectly desolate.

"The prosperous ranches that used to stand along the base of the mountains have been swept away by the savages, and an occasional desolated hamlet is all that is left of the villages. The great difficulty General Crook has to contend with is the scarcity of water. The scouts only know one or two places where water can be found, but the fugitives know where every drop is that is in the mountains. The most cordial relations existed between General Crook and the Mexican authorities, and his plans and intentions were fully approved by them. I think no uneasiness need be felt for the safety of General Crook. We had no other idea down there than that he knew what he was about and that he would come out all right.

TUCSON, May 31.
 Not a single reliable report concerning General Crook has been received since he crossed the line. All rumors thus far are merely surmises. It is generally believed that the hostiles are short of ammunition and will not stand a fight with Crook, and that they are preparing to surrender upon the first opportunity.

Speculations as to Presidential Candidates—What Warner Miller Says.

CHICAGO, June 1.
 Warner Miller arrived from the West yesterday. When asked who were being spoken of as Presidential nominees he said:
 "It is too early to make a statement, as I told them in California. I only regard three names seriously—Harrison of Indiana, Edmunds and Logan. Harrison is a very popular man, and would be a strong candidate. Both Edmunds and Davis were in California while I was there, and there was of course a good deal of talk on the subject, but all feel that it is too soon to prophesy. By the way, Dana of the Sun had been there, too, and I heard it said that he was still for Tilden."

"Then you think the old Stalwart fight will not be revived?"
 "I don't see how it can. No, it will not come up again. A new man will be taken up who can unite the party."

The Senator thought the tariff question might be revived by Democrats at the next session, but hardly expected it would amount to much, in view of the nearness of the Presidential election and the division among Democrats.

Governor James Grant of Colorado returned to Chicago yesterday from Indianapolis, from a visit to his business partner, Mr. Eddy. Other members of the commission went direct to Springfield, and after inspecting the State House there, will join the Governor here this morning. Being asked whom Colorado Democrats generally favored for President, the Governor said he thought Senator McDonald of Indiana found most favor.

The Interminable Star-Route Trials.

WASHINGTON, June 1.
 One year ago to-day the first star-route trial began, and this morning Merrick entered upon the fifth day of his argument in the present case.

The Ironworkers' Strike Supposed to be Ended.

CINCINNATI, June 1.
 Manufacturers say the iron strike here is ended, and that as soon as fires can be started work will proceed. The workmen did not insist on \$6 yesterday, but receded to \$5 50; but the manufacturers held the ground that the agreement with the

men to abide by the Pittsburg adjustment precluded them from all negotiations. There has been yet no formal meeting of workmen and no formal notice by manufacturers that work will be resumed.
 Will Regulate Church Matters Themselves.

LONDON, June 1.
 A dispatch from Berlin says Prince Bismarck presided yesterday at a meeting of the Prussian Ministry, when it was decided to take the regulation of church matters into their own hands, independent of Rome, and submit a bill in the Diet providing for a modification of the laws.

Two Negro Murderers Hanged in Georgia.

MACON, June 1.
 John Bailey and Henry Withbosh, both colored, were hanged at noon today, the former for the murder of Paris Tayman and the latter for the murder of Morgan Washington. The place of execution was Camp Oglesby, a few miles out of the city, the prisoners being escorted to the gallows by a company of State militia. About 15,000 people, mainly colored, witnessed the hanging.

Lawless Acts of Striking Miners.

DES MOINES, Iowa, June 1.
 The striking miners, in addition to blowing up residences of colored men brought here to take their places, are charged with firing two houses of miners last night.

Improvement Company—More Railroad Work to be Done.
 SEATTLE, W. T., May 31.

Articles of incorporation of the Seattle Improvement Company—capital stock \$250,000, divided into 2,500 shares of \$100 each—were filed to-day. The object of the company is to engage in wharf and dock building, and in the improvement of tide-flats near this city. Reports of the immediate construction of the Cascade division of the Northern Pacific to connect with the road to be built from Seattle to the Cedar river coal field has had a very perceptible effect upon real estate.

No Use to Go Where There is No Water.

GUAYMAS, Mex., May 31.
 News received from the new gold fields state that nothing can be done on account of want of water. One packer who went up lost all his mules, not being able to find water for them. Sam Brannan says the district is rich in gold, but that it is useless for parties to go there unless equipped with an artesian well apparatus.

Railroad Appointments—Villard's New Lieutenants.

PORTLAND, O., May 31.
 John Muir was to-day appointed Superintendent of Traffic of the Oregon and California Railroad, and is now traffic manager of all of Villard's lines on this coast. A. L. Stokes, formerly of Chicago, is made Assistant Superintendent of Traffic, and E. P. Rogers, formerly general freight and ticket agent of the O. & C., becomes general agent of the passenger department of all of Villard's lines.

The Ladies Plead With Gladstone For Mercy.

DUBLIN, June 1.
 The ladies' committee to aid political prisoners sent the following telegram to Gladstone: "We appeal to you on the grounds of humanity for commutation of the sentences of Thos. Caffrey and Timothy Kelly, two condemned Phoenix Park murderers. Three lives have already been taken in atonement for two. We ask for mercy." Caffrey is sentenced to be hung June 2d and Kelly June 9th. No reply to the communication has been received from Gladstone.

How the French were Defeated in China.

PARIS, June 1.
 Galois, in an account of an attack of Annamites on a French force near Honoe, says: Captain Riviere on leaving the fort advanced with 150 marines, leaving a reserve of 250 men. These, however, remained too far in the rear to be of service to his advance guard, which was surprised by a large force of Annamites and almost annihilated. On the rear guard arriving at the scene the Annamites fled, carrying off Capt. Riviere and 15 marines, all of whom were impaled next day.

The PUTNAM CART
 Patented Sept. 14th, 1880.

AMONG THE MANY PACIFIC Coast inventions none have received so much attention or become so popular in so short a time as the cart recently invented and patented by D. C. PUTNAM of Petaluma, Cal., U. S. A. Although it was originally designed and made for a breaking cart, it almost immediately found favor as a general business vehicle for all purposes where a light rig was wanted for driving, etc. For farm purposes and for children attending school at a distance, physicians, commercial travelers, mail carriers, overseers of ranches, sugar plantations, sheep-herding, livery at bies, etc., and indeed for almost any and all purposes where cheapness, convenience and durability are concerned, this vehicle cannot be surpassed. It is light, weighing only 200 pounds; it is easy on the horse, and with the patent foot-board very easy riding, taking the place of the buggy and saddle horse, while the price is so low as to place it within the reach of all, made either with pole or shafts, or both. Mr. PUTNAM, the patentee, is in Reno, and will remain one week for the purpose of introducing the cart. He is having six sample carts finished up at the shop of J. L. McFarlin, where the carts will be for sale during this week. ALSO COUNTRY RIGHTS and SHOP RIGHTS for sale. Address, this week, D. C. PUTNAM, Reno, Nev.

JOTTINGS.

It is high time to talk about Fourth of July.

Dr. Leonard has a notice in the 50-cent column.

Washoe County Commissioners will meet next Monday.

The Good Templars' picnic on the 9th will attract a large crowd.

There is an unusually large stock of agricultural implements in town.

Climax watches at Nasby's. Thermometer at 7, 9, 11, 1 and 3—68, 68, 70, 72, 72.

There were 152 passengers on the emigrant train last night, most of whom came from Missouri and Arkansas.

Reno sheep-shearers have nearly all gone to Utah, some under engagement and others seeking employment.

The tall end of a Raymond excursion party from Boston filled one of the coaches of the overland express this morning.

A. Lindley & Co., are handling large quantities of goods. There is great activity in their store during business hours.

Meylert & Hughes' stage took today as passengers R. Chandler and niece for Quincy and J. Trimble for Beckwith.

Wells, Fargo & Co.'s Express took west last night six bars of bullion, valued at \$12,300.40, from the Navajo mine, Tuscarora.

Alvaro Evans has disposed of a band of horses on his ranch along the Humboldt to J. A. Blossom of Battle Mountain for \$12,000.

Members of Reno Lodge No. 19, I. O. O. F., are requested to meet at their hall Tuesday, June 5th, at 9 o'clock, A. M., sharp. See 50-cent column.

"Old Swill" is at the County Hospital, and his cabin is an object of interest. It must be inspected in order to be comprehended in all its foulness.

The gold-mounted harness mentioned in the GAZETTE a day or two ago as having been made for Mooney of Virginia by Kline of Reno, was made on the Comstock for Peterson & Samuels.

Knowles & Bainbridge have an extensive assortment of hardware, glassware, crockery, stoves, ranges and tinware of every description, on hand and made to order. Call and inspect the stock, and you will be suited.

Putnam's Petaluma cart is becoming popular in Washoe county, quite a number having already been sold. It is the handiest little vehicle that can be imagined, easy for the horse and comfortable for the driver.

There are 42 different shades in kid gloves this season. This number might be increased by imitating the shade of disappointment that passes over a lady's face when she sees some other woman with a prettier pair than her own.

J. J. Becker extends a general invitation to the people of Reno and vicinity to join him in a glass of cool Fredericksburg lager, which is about as nice as anything can be—nothing better. Call upon J. J. and partake of his hospitality.

Reno can pride itself on having one of the best-stocked boot and shoe stores in the State. John Sunderland's display is probably not equaled by that of any other Nevada dealer. He makes a bid for the best trade in the State, and gets it. He is also agent for the Stetson hats, the most stylish and best-finished in the market.

A Kentucky man when dying, last week, told the watchers at his bedside that he saw Heaven. He probably had a vision of a big spring of living Bourbon whiskey flowing between banks of sugar and lemon, with a high-toned gentleman standing on either shore shooting at each other with gold-plated revolvers. Of course they were dressed in stylish clothes from the White House, where all gentlemen go who want to look well, as Abrams Bros. pride themselves upon their taste and ability to dress a man according to the latest fashions.

LIQUORICE.

A Root That May be Cultivated With Some Profit.

At Florin, Placer county, Isaac Lea is cultivating liquorice on a large scale. He has been cultivating this valuable root in a small way since 1877, when he began with two little pieces of root brought from Europe. The quality of the root grown by Mr. Lea is far superior to that imported from Europe. The roots, in pieces six inches long, are planted in furrows four feet apart and placed about a foot from each other, and covered with mellow earth. At the end of thirty-six months the rows are filled with roots, and the largest and best are taken out and dried in the sun, and the small roots left to grow for twelve months longer, when the crop becomes perennial. It is a profitable crop.

Ready for a Fire.

Yesterday during the high wind Hank Rhodes kept up steam in the fire-engine, so that the machine would be ready for immediate service. It would take but a few minutes for a fire to get under way in such a wind as prevailed yesterday.

MORE SOCIABILITY NEEDED

A Plan to Keep Young Men Out of Saloons and Other Places.

The other evening a party of married folks were making a call upon one of their neighbors, and having exhausted all minor topics of conversation drifted into the never-failing source of gossip—the social condition of things in Reno, and, as usual at such gatherings, the boys of the town came in for a large share of their virtuous condemnation. The accusation made by one lady that Reno had no real young gentlemen called forth a reply from the daughter of their host, the effect of which may tend to solve the question, "What shall we do with our boys?" She gave it as her opinion that if the young men of Reno were aught else but gentlemen, the fault was not so much their own as the young ladies'. She said (and the GAZETTE knows the truth of it) that those young ladies, or more properly speaking, girls, who are of an "interesting age," would rather "take in" a dance where "ladies will be admitted free, and are welcomed" is the rule, in parties of five or six or a dozen, and have a pick of the youths present for an escort home, than go there upon the invitation of any gentleman. This was true of all sorts of public entertainments. The young lady then asked the traducer of the Reno boys' character a question, which, perhaps, those same boys have often put to themselves—"If we do not frequent a saloon, where can we spend our evenings?" That was a stickler for the old ones and they acknowledged that perhaps the reason why there were so many young men seen holding down dry goods boxes these fine evenings might be a sort of "Hobson's choice." The result of that neighborly visit was that a certain influential citizen gave the promise of his support to any plan which would tend to keep the boys and girls off the streets, and bring them more into contact with each other. He has commissioned that young lady to get the young folks together and organize a social club, the exact character of which they themselves shall determine, the only object to be to encourage true sociability. The young ladies have already taken the matter in hand, and the GAZETTE hopes that the boys will "stand in," so to speak, and is confident that if they do it will be a source of pleasure and a means of benefit to them.

PERSONALS.

Wm. R. Chamberlain is in San Francisco.

D. A. Bender's boy at Carson is very sick with the scarlet fever.

Miss Henrietta Levy of San Francisco is visiting Mrs. M. Nathan.

Wm. B. Toddhunter, who has a hundred cattle on a thousand hills, was in town this morning.

Rev. Dr. McClure of Oakland came up this morning, and is the guest of Bishop Whitaker.

Frankie Barnes is enjoying his 12th birthday to-day. He is over five feet tall, and weighs 92 pounds.

Senator Fair left New York for Europe yesterday, to represent Nevada at the leading places of Europe.

Hon. Thos. Wren, who has Senatorial aspirations, was a passenger on the eastern express this morning.

Little George, son of Mr. and Mrs. J. L. McFarlin, has so far recovered as to be able to be out riding.

Dr. Patterson, wife and child left Reno to-day by private conveyance for their home at Cedarville.

M. M. Fredrick, the Comstock jeweler, came from Tuscarora last night, and went to Virginia this morning.

James Rule—famously called "Jim"—a Comstock veteran, was one of the passengers for Virginia this morning.

Charles Williams of the Journal, better known as "Becher," starts to-night for the Sandwich Islands with Gordon Rice.

Captain T. G. Taylor will probably continue to act as Superintendent of the Yellow Jacket mine under the new managers.

Thos. Shelton and L. Day pulled out from Lee's yard to-day with freight for their chosen town, Taylorville, Plumas county.

Jerry Bray, a long-time brakeman on the V. & T., but now conductor on the Carson & Colorado road, came down on a visit last night.

Joseph Barstow and J. P. Meder, two popular men who have been connected with the V. & T. road for some years in various capacities, left for the northwest coast last night. They propose to locate in Washington Territory or Oregon.

A Tough Turkey.

Thirty-one days ago Mr. Chism accidentally covered a turkey setting on a lot of eggs, with loose hay. Yesterday he pitched off all the hay he had in the stable and found his turkey still on the eggs. She was very thin and weak, but still able to walk. It seems almost incredible that she survived so long without food or water.

Mills to Start Up.

A telegram from Emigrant Gap says: The roads are now open to and around this place. There is hardly any snow remaining on the ground. The mills are expected to start up before 10 days.

THOROUGHBREED COWS.

The Difference Between Mustang Stock and Well-bred Animals.

The dairy industry has naturally stimulated inquiry as to the most profitable breeds of cattle for dairy purposes, and very full and exhaustive experiments have been made with a view to testing their cheese and butter producing qualities, for it is only a simple question of arithmetic to show that a cow giving double the quantity of milk, though costing originally two or three times as much as the other, is much the more profitable, the care being not more expensive in proportion.

Careful investigation shows that all desirable qualifications are not to be found in any one variety. Most prominent among blooded cattle are Durhams, Herefords, Holsteins and Jerseys, the two former of which have long since been conceded to be at the head as beef producers, but the question of superiority has not yet been settled between the friends of the two. The Holsteins rank next in this regard, while it is well high demonstrated that as milk producers and consequently as cheese producers they beat the world.

The Jerseys for butter are acknowledged to have the lead, and for family use when but one or two cows are kept, or for exclusively butter dairying, are most desirable. Ordinary dairies average 4,000, to 5,000 pounds of milk to the cow, and one very extra dairy of ten cows gave an average for the season of 7,000 pounds. A very large yield in the best of the season for a native cow is 50 pounds a day, and the highest known, perhaps 60 pounds. This is the record for native animals in their prime.

In contrast, the Holstein "Aggie" at six years of age gave in one day 84 1/2 pounds; in one month, 2,363 1/2; in six months, 10,692 1/2, and in the year, 18,004—an average of over 50 pounds for 300 days. Others have done nearly as well.

Among three year olds, "Sappho" made a record of 64 pounds in one day; 1,755 in one month; 6,485 in 150 days, when the season was interrupted, nearly 41 pounds a day. Another named "Duchess," same age, made a record in one day of 62; in one month, 1,535; in six months, 7,315; in one year, 12,027, an average of about 34 pounds a day for 300 days, which is more than twice the average of ordinary dairies, and exceeds the daily yield of our best native cows taken in the three or four best months of the season. It will be granted that these are exceptional cases, but it is not too much to claim that the average yield of these cows, taken as they run, is from 50 to 75 per cent. in excess of any other breed known.

He Killed But One Man During the War.

A brave old veteran who commanded a cavalry company during the rebellion, was relating many hair-breadth escapes to prove his valor. "I never killed but one man during the whole war," he said in a melancholy manner, "and that was unavoidable."

"How was that?" inquired a listener.

"Well," said the old soldier, seriously, "a confederate chased me 25 miles and fell dead from sheer exhaustion. I have greatly regretted it ever since, but it could not well be helped."

An Over-fat Hog Don't Make Good Pork.

A fat hog is no test of good pork. Flesh must be healthy to be good. As a general thing fat hogs are not healthy animals, nor is the pork the best quality. The wise buyer would prefer, for his own use, the hog that is not so fat as to be unable to help itself to its food. The blood ought to be pure, and to have this so, the hog must be able to move about easily. The over-fat pig is impure blood, hence impure flesh.

He Knew the Best Milkmen on the Ranch.

A misplaced humorist, employed in a very subordinate capacity on a suburban milk ranch, got himself discharged one day last week by a piece of misapprehension. His employer cautioned him about properly supplying the cows with fodder and warned him not to neglect any of them again on penalty of discharge. Upon the next tour of inspection the proprietor found the cows all well supplied with fodder, and also discovered that a large bunch of it had been tied upon the spouts of two pumps in the yard.

The Last of the Season.

Mrs. Alt intended to close her dancing school for the season with a necktie party at Kimball Hall last Wednesday, but postponed it on account of Memorial Day. She will now give a calico ball on the 13th, which will be her last party of the season. She has offered two beautiful prizes, which are to be seen in Goeggel's window. For particulars read 50-cent column.

Indians on a Spree.

Our red brethren had a dance at Verdi last night, and, getting too much steam on, broke out into a row among themselves. One or two were well pounded, and several pistol-shots fired, with what result is not reported. Bucks and squaws were very drunk.

WONG FAT'S MISTAKE.

A Gorgeous Drum Major Leads the Celestial Astray.

The gorgeous drum-major at the head of the procession Wednesday, says the San Francisco Chronicle, caused Wong Fat to fall into an egregious error and greatly prejudice his standing among the Mongolians of his precinct as an infallible authority on all American matters, civic and military. The loquacious laundryman was explaining to Loo Fun and a group of Celestials the object of the Decoration Day exercises, when the gigantic drum-major aforesaid came in view, brandishing his tasseled badge of authority.

"A-h-h—wha you callee him?" inquired Loo Fun.

"Him—him big soljee man, allee same Genlee."

"Wha Genlee—Genlee Giant?"

"No; Genlee Giant muchee old man. Him Genlee Barnes."

"You think you know him good?"

"Yeh; me know him heap well. Genlee allee time swingee stick, keep off gelie."

"Me thinkke you no sabbee him. Genlee him no go head him soljee."

"Why no him go head?"

"Cause him no wantee get kill. Melican Genlee him neva get kill. Him no made Genlee to fightee. Him stay behin, lettee soljee get kill, so him come home lun foh ofice. You foolie too muchee Wong Fat. Me sabbee you."

From Reno to the Tropics.

Gordon A. Rice leaves to-night for the Sandwich Islands. Mr. Rice has been connected with the GAZETTE for seven years, and for some months has been its efficient foreman. He has lived in Reno from boyhood, and has earned the respect of all who know him. His energy and intelligence will be his passport wherever he may go, for it is safe to say that of all the young men in Reno no one is more competent to "paddle his own canoe" than the young friend from whom we all part with much regret.

A Matter of Interest to Mill-Site Claimants.

By a recent ruling the claimants of mill-sites are permitted to cut timber thereon for the purpose of constructing mills, reduction works, tramways, or other accessories required in developing their mining interests. In permitting the removal of timber from a mill-site, or a tract of non-mineral land prior to the issuance of a patent therefor, it is strictly forbidden to make such timber an article of sale for private gain or speculation.

Nobody Hurt.

Last night, while the east-bound freight train was at the depot, somebody called out in a voice that seemed to indicate an accident. The alarm was repeated several times, but diligent search failed to turn up a victim. It was concluded that some facetious individual was joking the train men; but there was not much humor in it.

New Hats and Belts For the Juniors.

The boys of the Junior Hose Company have received new hats and belts from New York, and are patiently awaiting an opportunity to exhibit them in public. The hats are helmet-shaped, made of black morocco leather corded with red, and very neat.

THE SAN FRANCISCO

EXAMINER!

THE BEST NEWSPAPER ON THE PACIFIC COAST.

The Daily and Weekly Examiner Office.

THE SAN FRANCISCO EXAMINER is the best and most reliable newspaper published on the Pacific slope. It contains all the latest news of both the Old and the New World. The Examiner is the most complete and most reliable. In Local News it is far superior to any other, and its Editorials are admitted to be the best of all.

The EXAMINER has always been, and always will be, the friend and champion of the people as against combinations, oligues, corporations, or oppression of any kind. It will be independent in everything, neutral in nothing; fair and impartial to all parties, yet exposing corruption wherever found, and working with fearless candor to promote and protect the interest of the great public whom it serves. To whom it is devoted.

THE DAILY SAN FRANCISCO EXAMINER including the Sunday edition, sent to any part of the United States (post-paid) for SIX DOLLARS PER YEAR.

OMAHA WEEKLY BEE

SPECIAL INDUCEMENTS.

Since the distribution of premiums is over and our premium list closed until next year, we are yet anxious to increase the circulation of the WEEKLY BEE to such a number as to greatly reduce the cost of the paper and to furnish it to our subscribers at a mere nominal price. In order to do so we offer the same for the balance of the year, until January 1, 1884, for ONE DOLLAR. This is the lowest price ever asked for a western journal of its size, and all should avail themselves of this liberal offer.

A CARD.

To the Citizens of Reno:

I HAVE BEEN A RESIDENT of your town for three years, and, outside of my own business, have not seen a decent pair of boots that were made here. In order, therefore, to extend to everyone facilities for obtaining really first-class boots and shoes, I have sent to San Francisco (two A. No. 1 mechanics, the best to be found in the country, and will run as heretofore) a prime, first-class shop. The enlargement of my stock and facilities will entail heavy extra expense, and I look and trust, therefore, to Reno's citizens and the people generally who are desirous of obtaining the very best of workmanship, to aid me with their increased patronage. First-class material, first-class workmanship and first-class work at living rates is the motto on my coat-of-arms.
